**Q.1) Which of the following statements about Totaliser machines is/are correct?**

1. It mixes votes from various booths for counting
2. It prevents disclosure of voting patterns across polling stations

**Select the correct code**

- a) Only 1
- b) Only 2
- c) Both 1 and 2
- d) None of the above

**Q.1) Solution (c)**

It mixes votes from various booths for counting.

**Current Counting –**

- Votes from each EVM are counted separately and thus it reveals the voting trends in each polling station.
- Voters in that vicinity open to harassment, intimidation and post-election victimisation

**Totaliser Machines –**

- Prevent disclosure of voting patterns across polling stations
- This will allay the fears of voters against any pre-poll intimidation or post-poll victimisation by any candidate.
