A Small Note by IASbaba

“The Difference Between Ordinary and Extraordinary is Practice.. IASbaba’s AIPTS provides you that Perfect Practice Road-Map to reach your Goal !!”

IASbaba is known for its quality coverage and it is a testimony that we have been able to **HIT the bull’s eye in Prelims and Mains** both over the period of last 4 years. The closeness and exact repetition of Questions from our Tests needs no mention. This is acknowledged by many Toppers every year.

Well, apart from the fact that many toppers have recommended IASbaba for our quality, the overall results are a testimony of our meticulous planning and dedication towards students.

We try to **match the standards set by UPSC** in our test series by keeping the **questions of mixed difficulty level** i.e. easy, moderate, difficult and very difficult. The overall level of the test is kept a notch higher than UPSC so that students of IASbaba can have an edge and can handle uncertainty much better than the rest. If you are able to maintain a good rank in the IASbaba test series, surely you’ll find the actual paper like a stroll in a park.

As you all know, in recent times the importance of Current Affairs have increased. Keeping this in mind a **Current affairs test** is kept **every 15th day**.

This test series caters to **both category aspirants – Fresher’s** who have just started their preparation and **Veterans** who have attempted UPSC Prelims before.

If there is one thing that separates a person who qualifies the exam and a person who does not is **DISCIPLINE!!** The plan has been designed to bring discipline in your preparation and keep it streamlined. You keep walking this path, and it will take you to your goal.

10.

DETAILED ASSESSMENT OF YOUR PERFORMANCE

DETAILED ASSESSMENT OF YOUR PERFORMANCE- For you to analyse your performance we provide **2 tools** – **Time Analytics** and **Subject-wise Analytics**.

As **time management** is one of the most important factor on the D-Day of the exam, the **Time Analytics** will help you in gauging your efficiency per question. Here, you will be able to know the time you have spent on individual question, the average time taken by all your peers and time taken by the topper to solve the same question. This analytics becomes extremely important in both GS and CSAT papers as we believe if you are not able to go through all the questions in the given 2 hours, then it's a crime! This will also help you in knowing how much time you should spend on the difficult questions, so that you don't miss out on solving the easier ones.

Subject-wise Analytics will help you introspect your strengths and weaknesses in a particular subject. It also helps you in giving more clarity and knowing your subjects better. Based on that, you can work on your weakness and gain more confidence in subjects of your interest.

Overall, both the tools will aid you in analysing yourself better in terms of the subject and time factor which are two most important factors in cracking UPSC Prelims.
